

Distance Learning Information & Reminders

Daily Announcements: Starting today, Mrs Hazard is now sending Mrs. Vance's daily announcement video directly to our students. Students in K-4 may view the video in Seesaw and students in 5-8 may watch it in their homeroom/advisory's Google Classroom. This is a great way for students to feel connected to Principal Vance and start their day with our usual routine of prayer, a little fun and general information. We will continue to post them on our social media channels as well.

Calendar: Our April calendar is up to date and a great place to double check which day it is within our six day cycle. You may find a link on both our home page and our parent resource page or view it directly in Sycamore.

Reminders: Students should be logging in each day between 9:00 and 10:00am. Students need to answer the question or check in with their advisory for attendance, or they will be marked absent.

Homework for middle school is due by midnight on the day that things were assigned. Teachers in the lower grades will provide specific dates.

Specialists are also doing online work for classes, so remember to have your child check in for assignments through Seesaw or Google Classroom for more than just their homeroom teachers. We are still following our six day schedule which can be found on our Sycamore calendar. We have links to Sycamore on our [parent resource page](#).

Parents are encouraged to go into Sycamore for grades 5-8 and check the grade books for missing work and other notes. Once you log into your parent account, you can hover your mouse over your student's picture. Then click on Grade, Trimester 3, and then the blue box showing the current letter grade. This will open up a list of assignments, missing ones will show in red.

Middle school students should review corrected assignments once they are posted in Sycamore. This gives students an opportunity to see how they are doing on their daily work. Now that we are learning remotely, we want to be sure they are receiving feedback from their teachers and understand the material.

We also posted schedules for 6th, 7th and 8th grade on the parent resource page. You can click on the various schedule buttons and print a pdf version. This may be helpful to you and your student to understand which classes fall on which days or to use as a homework checklist.
